

## ■ 産業振興 ■ ～多種多様で優れた製造業が集積～

### (Industrial Development—Accumulation of Diverse and Excellent Manufacturing Industries)

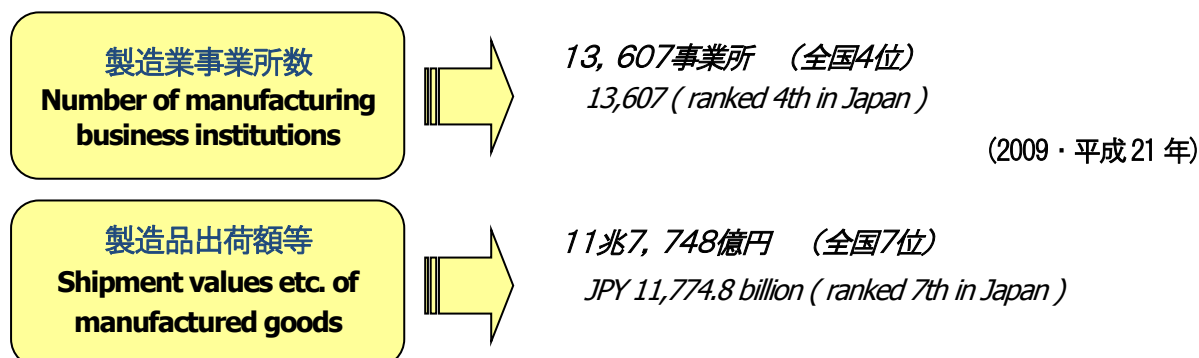

埼玉県は首都圏に近いという恵まれた立地条件を活かして、様々な産業が展開されています。消費地立地型の企業や次世代自動車など成長産業の発展を見据えた企業の進出が進んでいます。川口市の鋳物や金型、さいたま市の光学機器など、長年にわたって培われた技術力が蓄積されているとともに、最新の技術を有する多彩な企業が多数活躍しています。また、ホンダやボルボ・グループのUDトラックに代表される大規模工場があり、これをサポートする中小企業が集積しているのも本県の特徴です。

Taking advantage of the Prefecture's good geographical conditions of being close to the capital, various industries have been developed in Saitama.

Companies with good future visions for growth industries, such as focusing on market-oriented locations and engaged in next generation vehicles, are expanding their businesses in Saitama.

While technological capabilities cultivated over a long period are amassed in the Prefecture including those for casting and molding in Kawaguchi City and optical instruments in Saitama City, many companies of great variety which boast of the latest technologies are carrying out proactive businesses.

Furthermore, Saitama is also characterized by the presence of large-scale factories as represented by Honda and UD Trucks of the Volvo group as well as by the accumulation of small and medium-sized enterprises to support them.

#### ◆ 輸送・精密・一般機械・金属製品・食料品に代表される多種多様な製造業が集積
