Also, if they find our Japanese or Kanji skills are not so good, they will provide us with a special class and teach us kindly. Here I've learned how it is important to be kind to others. Message from seniors	 <p>Limsukhawat kittichat (from Thailand) Tokyo Denki University aims to nurture students to be people who can contribute to society with technology and therefore I study hard every day. As Saitama Hatoyama campus is spacious and surrounded by nature, it is an appropriate environment to study. Also, many students live near the university so I can enjoy spending time with Japanese students in the classes and club activities. In addition, there are a lot of events for international students that I can experience Japanese culture through seasonal events such as cherry blossom viewing party, Tanabata Star festival, New Year's party.</p>
